ISx Names Director of Development To Drive New Investment in Technology

Rich Andresen Brings Extensive Product Development Experience to ISx Team

January 31, 2005 -- Fort Lauderdale, FL, USA – Information Services Extended, Inc. (ISx)[™], a world leader in information search and directory assistance, today announced the appointment of Rich Andresen as Director of Development. Andresen will be responsible for overseeing a team charged with developing new capabilities for the ISx FlexiQ[™] platform, in addition to its ongoing support for customer implementations worldwide.

Andresen is a former software development director for enterprise software company, Citrix Systems, Inc. As a founding employee at Citrix, Andresen was responsible for several projects that led to the development of new products and internal processes that contributed to the company's dramatic growth over the past 15 years. Prior to joining Citrix, Andresen was a software developer at IBM.

“Rich Andresen brings to ISx an excellent combination of development skills and experience in high-growth technology companies,” said Gerson V. Brisola, vice president, Development and Marketing, ISx, Inc. “His experience and skill will be a valuable addition to delivering on our strategy to continually invest in new technology that helps our customers take advantage of growth opportunities.”

“With the strength of its current FlexiQ platform and commitment to ongoing development, ISx is positioned to stay at the forefront of technology for the information search and directory assistance industries,” Andresen said. “I look forward to working with the ISx team and customers to sustain the company’s record of product excellence.”

About ISx:

Information Services Extended, Inc., www.isxinc.com, has been a world leader in providing information search and directory assistance (DA) solutions for more than 25 years. ISx customers include such established telecommunications companies as Belgacom, Eniro, Fonecta, France Telecom, Matav, MCI, OTE, SBC, Sensis, Telstra and others, as well as independent call centers, providers of directory services content and emerging providers of innovative DA services. The ISx FlexiQ™ platform provides an end-to-end solution for wireless, wireline and electronic directory assistance and information services. ISx offerings support search, enhanced information services, and speech recognition for call automation, Internet and wireless technologies. ISx is headquartered in Fort Lauderdale, Florida, USA, and operates sales and support offices in the UK, Belgium, Finland, Hungary, and Australia. For more information, please visit www.isxinc.com
